*Abstract:* Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the general provisions of 40 CFR Part 60, Subpart A, as well as for the specific requirements at 40 CFR Part 60 Subpart FFF. This includes submitting initial notification reports, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with these standards.

*Form Numbers:* None.

*Respondents/affected entities:* Flexible vinyl and urethane coating and printing facilities.

*Respondent's obligation to respond:* Mandatory (40 CFR Part 60, Subpart FFF).

*Estimated number of respondents:* 25 (total).

*Frequency of response:* Initially and semiannually.

*Total estimated burden:* 848 hours (per year). Burden is defined at 5 CFR 1320.3(b).

*Total estimated cost:* \$320,000 (per year), which includes \$232,000 in both annualized capital/startup and operation & maintenance costs.

*Changes in the Estimates:* There is an adjustment increase in the respondent burden and cost, including total O&M cost, in this ICR. This is not due to program changes; rather, it is due to an increase of one additional source being subject to these regulations since the last ICR renewal period. In addition, this ICR assumes all existing sources will need to re-familiarize themselves with the regulation each year. This change in assumption also contributes to an increase in the labor hours and costs.

Dated: June 23, 2016.
